Good Morning s.38

Further to our conversation this morning,

We have exhausted the local resources to try to more the Coutts blockade. Tow trucks will not attend and we have been advised they are being paid by the crowd funding to not attend. We had tow trucks yesterday, but today they have refused to attend due to the amount of threats they have received and the damage it will do to their reputation.

We are starting the formal request for heavy lift vehicles to remove the blockade from the road. It is a mix light trucks all the way to Super B trains with loads (super B train weight max legal load is 63,500 kg).

I have attached a aerial picture of the blockade. RCMP will provide all security of the site s.38
s.38

If you have any questions, please feel free to give me a call.

Thanks, James

James Stanviloff, Cpl.
